There are a few remedies known to the Medical Profession which will remove the Rheumatic Poison from the blood, but whose action is so powerful in depressing the system of the already enfectled Rheumatic particle. tient, that their use has to be abandoned before specific effects are obtainable, hence the want of success in treating this prevalent and in consequence heretofore incurable disease. The Daily Standard.

Phursday, January 18, 1872. The Political Chameleon. cheap ; but it is notoriously the fact that cheap articles are sometimes the dearest utterances may be, -even when it happens to tell the truth,-no reliance can be placed on it whatever. Its proneners to distort and misrepresent, only renders it the more unreliable, -and especially so when its statements are denied. Its statement yesterday about the origin of "The Meeites" is to the point. No such conversation ever occurred,-and it is simply a pure fabrication; and if any member for the city ever retailed such a story, it must have been coined from his own brain to serve his own political purposes with the chameleon-journal Again, after condemning the new Ministry "as men," it now swallows its own words censuring them, and with it the condemned men too, and asks the public to try them by "their measures" that it had previously maintained that others and better men than the Ministers had created for them. Now such an official organ, conducted in such a way, would injure a strong M nistry, but when by a blunder it becomes the mouth-piece of a weak Ministry, it has only one merit, and that is in being the involuntary means of swamping our new political captains a leading of the onicker. In its article vesterday, the quicker. In its article yesterday, we are informed that the Standard advocates "men, not measures." Our readers know this to be wholly incorrect. Our position on that ground is that neither of the gentlemen composing the Ministry Fort Street, above Douglas (adjoining are the choice of the majority of the the residence of Dr. Ash) on members; and it is for the majority to make their choice, so that for the first time in this country a government may be constituted that by every true interpretation of our constitution, it may be emphatically a People's Ministry on the consible Government model. Then as to "measures," we maintain without ast fear of contradiction, that the measures that other public men have toiled to make a success and ask to be kept in office on measures not of their own creating. If there are other public men in the Assembly who are as capable of carrying out the measures that they have originated and advocated, they are the men who should be authorized to carry them out. Certainly—to use the Chairs, Tables, Pictures, Engravings, words of the Colonist—"enemies and Six Tano Musical Box, Curtains, Corstrangers' to their measures,-" men who have pushed their opposition to the verge of treason" are not the right men to put measures into operation that they notoriously neither originated nor favored, but have opposed, and might still oppose or never urge their adoption, were it not for the potent influence of ja18 four thousand Jollars a year. Can there be a doubt in any man's mind as to ile impropriety of trusting our affairs, to use the official organ's words as applied to the Ministry, in "the hands of men who have pushed their opposition to the verge of treason"? The political chameleon—our local cotemporary—takes as usual its fling at Mr. DeCosmos. He opposed all the past governments, from Gov. Douglas to Premier McCreight, it says. But it failed to tell the fact, that those governments were not opposed for opposition sake, but to get self-government for the people--to secure Respon-sible Covernment, Union of Vanconver Island with British Columbia, and Confederation with Canada-and a vast non ber of other measures,—and if any man can have any satisfaction in seeing the measures that he was the first in the Province to advocate, then Mr. DeCosmos has that satisfaction, -whilst the political crawlers and trimmers,—the spaniel-like spawn such as our chameleon cotemporary. -can point to no great measures that they ever originated, advocated, agitated, and lived to see made a grand success. If opposition to government brings such results as have followed the opposition of

mention dropped Confederation and were bargaining for American gold and annex-

ation, he was laboring for British America's consolidation. Mr. Hum-

phreys too, comes in for a fling-for no

other reason than that he can see no

justice in supporting a Ministry that has no claim on the public in preference to

men who have done service to the State.

But compare his political record with Mr. Robson, or Mr. Walkem, or Mr.

Holbrook,—although he has been but a few years in public life,—and the common

righter, -whilst theirs will not har the closest examination. The cry too of the Colonist about delaying the business of List of Donations for the Erection the country a twelvemonth by a change of Ministry, we have already exploded. If delay be a reason for prohibiting the people from getting such a government as will command their confidence, then such a government will be had; and if delay be urged as the excuse for not ousting them, this year, then it may be urged next year and so on forever. The delay If our local Prime Minister made a chameleon knows it, and the public too. great mistake in hooking the Hon. The cry of delay is simply set up to keep great mistake in hooking the Hon.
